ANNUAL REPORT
OF THE
Trustees of the New York
Society Library.

The Trustees of the New York Society Library respectfully submit to the shareholders, the following state of its condition for the year ending March 31, 1898.

The report of the Treasurer, presented herewith, shows the receipts from all sources during the year, to have amounted to \$20,744.83, and the disbursements of all kinds to \$20,633.80, leaving a balance on hand of \$111.03, of which amount the sum of \$92.40 belongs to the income of the "Green Fund."

In compliance with a resolution of the Board, adopted April 14th, 1897, the Treasurer has notified shareholders in arrears for annual dues of the forfeiture of their shares, in accordance with the provision of the Charter and By-Laws. Several shares have been revived and others made free from dues by commutation. In a few cases, arrears have been paid up, so that the amount received during the year now past, for annual payments, is somewhat larger than during the preceding year.

The sum of \$8,000, mentioned in the report of last year as on deposit in the Union Trust Company, has been invested in Bond and Mortgage on the premises at 39 South William Street.

The amount of the Commutation Fund, now on deposit in the Manhattan Savings Institution, is \$2,023.

The long and honorable career of the Society Library since the year 1700, entitles it to a place in the affection of all old New York families, and it seems almost a disgrace that an institution comprising so much wealth in its membership, and located in one of the richest cities in the world, should be allowed to be hampered for want of funds.

The Trustees are gratified to report this year a bequest from the late Charles H. Contoit, the largest ever received, but regret to be obliged to state, that objections to the will have been interposed, and that, consequently, the enjoyment of its benefits may be delayed; and at the same time it may be added, that very recent events hold out the strong hope that an early and favorable settlement will be arrived at. Other similar bequests would enable the Library to be administered in a manner more befitting its character. Without question, the liberality of one member of the Board of Trustees is unique. There appears to be no instance, where the entire expense of cataloguing a library of the magnitude of this, has been borne exclusively by one of its Trustees. It is, therefore, with especial pleasure the Trustees again express their acknowledgment of the generous gift of Mr. F. Augustus Schermerhorn. During the year the work on the new catalogue has been progressing steadily, and will be pushed still more rapidly during the summer.

It is sometimes said that the rates of the Society Library are high, but the Trustees feel sure that there is no subscription library in this country, so liberal in the number of books allowed at one time, or the freedom permitted to its members. The rates of the Boston Athenaeum and Library Company of Philadelphia are even higher. The Library Committee have now so arranged, that all new books of interest to the members are purchased on the day of publication, and put into circulation immediately. Any book not in when asked for, is reserved upon request of the member, and notice is sent when the book may be had, or it is immediately sent by messenger, if requested, at the trifling expense of car fare. All orders by mail receive equally prompt attention, so that the members, with little trouble or expense, may have the latest publications within a very brief period after they are issued.

More copies of popular books have been purchased than ever before. The Trustees feel that a more liberal policy must be pursued,

and they appeal to the members, to interest such of their acquaintances in the institution as are likely to prove desirable acquisitions.

The Trustees record with regret the death of Charles E. Strong, the oldest member of the Board, who had served since 1855, Prof. Henry Drisler, L.L.D., for twenty-three years a valuable member, and John A. Hardenbergh, who was elected in 1891, and served as Treasurer most faithfully and acceptably since 1893.

The subject of the removal of the Library has received, during the year, the especial attention of the Board. The matter has been placed in the hands of a committee appointed for the purpose, and examinations have been made of various sites. The selection of an appropriate site, owing to the rapidly changing conditions of the upper part of the city, is one of great difficulty ; but, beyond that, the disposition of the present building seems, in the present financial condition of the Library, an essential preliminary to any decided action. Such disposition at the moment, on any advantageous terms, seems out of the question, and it therefore appears that a pause in the direction of moving is, for the present, imperatively enforced.

Among the expensive and more important books purchased during the year, may be mentioned the "Madrid Gallery," 3 vols. (This very important work is the only copy in the numerous Libraries of New York City) ; "Smith's Catalogue Raisonné," 9 vols., Lond. 1829—42, a very rare work ; "Rietstap, Armorial Général," 2 vols ; "Records of New Amsterdam," 7 vols. "Baxter, Godchild of Washington ;" "Century Atlas of the World."

Chairman.
